

# Engineering the **Net-Positive** Civilization

One regenerative operating system. Twenty ventures. Twelve resource realms.

Scarcity is not a natural condition — it is an **engineered systems outcome**. The corollary is the founding insight of the PEACE Ecosystem: if scarcity can be engineered, so can abundance, resilience, and sovereignty. We are building twenty ventures on that premise, unified by one framework — the **Peace Protocols** — that makes human provisioning local, regenerative, and anti-fragile across 12 Resource Realms and 7 Sovereign Bodies. Not a portfolio of projects: one operating system, with a hard-technology core that earns real revenue, wrapped in the digital, human, governance, and capital layers required to deploy it at scale.

PLANNED REGIONAL HUBS

## **A THE ENGINE — MATERIALS, ENERGY & HARD TECH**

**Royal Engineering Tech** — basalt foundry & operating parent (51% Alaska Native-owned, SDB-certified).

**Royal Forge Tech** — plasma-melt basalt-fiber composite.

**Royal Energy Club** — licensed ENG8 catalyzed-fusion power; EnergiCell® systems, demonstrated live.

**Basalt Yachts** — basalt-composite vessels, fusion-class propulsion.

**IPC Engineer · Pais Science** — open energy education & frontier field-effect R&D.

## **→ THE VALUE CHAIN**

**Basalt rock → plasma foundry → composite + fusion power → vessels & infrastructure → revenue-bearing campus**

Energy systems power every ReGen Hub off-grid first; market delivery follows once internal demand is met — proving the product on our own load before it is sold.

*"Scarcity is engineered. So is abundance. The PEACE Ecosystem is the architecture for building it."*

## **B-E THE SURROUNDING LAYERS**

**DIGITAL & DATA** Decentralize.Earth, Royal Data Club

**CAPITAL & ECONOMICS** Imagine Freedom Fund, QFi Plus / QFI OmniFi (live: OTC, banking 100+ countries, tokenization, OMNIX AI)

**HUMAN & COMMUNITY** Peace Engineers, Solutionaries, Human Farm, Sovereign Birth, Domestic Eng.

**GOVERNANCE, LAW, MEDIA & SPIRIT** Peace Law, Freedom Law, Raven Reports, Raven Reveals, Truths Church

## **◆ WHY IT COMPOUNDS**

**Peace becomes a unit-economics story.** As local regenerative provisioning rises and dependency falls, communities measurably gain resilience and sovereignty — and the cheapest option becomes the regenerative one. Each venture stands alone, yet is worth more inside the system.
